

EXPERIMENT – 5A

NAME : GAYATHIRI T

ROLL NO :240701140

**Simulate the lifecycle stages for UI design using the RAD model
and develop a small interactive interface using Axure RP**

AIM:

To simulate the lifecycle stages of UI design using the RAD model and develop a simple interactive interface (Register + Dashboard) using Axure RP.

RAD Model – Customized for Your UI

1. Requirements Planning (Based on your screens)

Key Features Identified:

- User Registration (Username, Email, Password, Confirm Password)
- Login Navigation
- Dashboard Navigation Menu:
 - Home
 - Profile
 - Settings
 - Dashboard
 - Logout

User Actions:

- Enter user details and register
- Navigate to login if already registered
- Access dashboard after login
- Click menu options (Home, Profile, Settings)

- Logout from the system

2. User Design (Your UI Screens)

Wireframes Created:

- Register Page
 - Input fields:
 - Username
 - Email
 - Password
 - Confirm Password
 - Register button
 - Login redirect option
- Dashboard Page
 - Welcome message (e.g., “Welcome Karan”)
 - Profile image
 - Navigation buttons:
 - Home
 - Profile
 - Settings
 - Dashboard
 - Logout

Interactions Added:

- Register button → Navigates to Dashboard
- Login text → Navigates to Login page
- Dashboard menu buttons:
 - Home → Opens Home screen

- Profile → Opens Profile screen
- Settings → Opens Settings screen
- Logout → Returns to Login/Register

UI Design Elements Used:

- Rounded input fields
- Gradient background (pink + blue theme)
- Icon-based navigation
- Vertical menu layout

3. Construction Phase

Prototype Development:

- Created interactive screens in Axure RP
- Linked buttons with navigation actions
- Added click interactions

Testing:

- Checked navigation between:
 - Register → Dashboard
 - Dashboard → Other sections
- Verified button clicks and UI flow

4. Cutover Phase

Final Output:

- Exported interactive prototype
- Shared as HTML / Axure Cloud

User Support:

- Explained:
 - How to register

- How to navigate dashboard
- How to logout

Register Page:

- Clean form layout with 4 input fields
- Gradient background improves visual appeal
- “Already have an account? Login” option improves usability
- Large Register button for easy interaction

Dashboard Page:

- Sidebar-style navigation menu
- Icons improve user understanding
- Personalized welcome message
- Profile image adds user identity
- Logout button clearly visible

Conclusion:

The RAD model helped quickly design and refine the UI. Using Axure RP, an interactive prototype with a registration system and dashboard navigation was successfully developed.
