

EXPERIMENT – 8

NAME : GAYATHIRI T

ROLL NO : 240701140

**Create storyboards to represent the user flow for a mobile app
(e.g., food delivery app) using OpenBoard**

Aim:

To map out the user flow for an Online Learning mobile application by designing storyboards using OpenBoard.

Tools Used:

- **OpenBoard Software**

Procedure:

Step 1: Define the User Flow

1. Identify Key Screens:

The main screens selected for the Online Learning App are:

- Home Screen
- Course List Screen
- Course Details Screen
- Video Player Screen

2. Map the User Journey:

The user flow is designed as follows:

- User opens the app → Home Screen
- User browses courses → Course List Screen
- User selects a course → Course Details Screen
- User starts learning → Video Player Screen

Step 2: Create Storyboards Using OpenBoard

1. Install OpenBoard:

Downloaded and installed OpenBoard from the official website.

2. Create a New Document:

Opened OpenBoard and created a blank document.

3. Add Frames for Each Screen:

Divided the canvas into four sections, each representing one screen.

4. Sketch Each Screen:

a) Home Screen:

- App title (E-Learning)
- Search bar for courses
- Options: Courses, My Learning
- Browse Courses button

b) Course List Screen:

- List of courses such as:
 - Python Programming
 - Data Structures
 - Web Development
- “View” button for each course

c) Course Details Screen:

- Course title (Python Basics)
- Description of the course
- Buttons: Enroll and Start Course

d) Video Player Screen:

- Video display area
- Play button
- Progress bar
- Next Lesson button

Step 3: Organize the Flow

- Arranged the screens from left to right
- Connected them using arrows to show navigation:
 - Home → Course List
 - Course List → Course Details

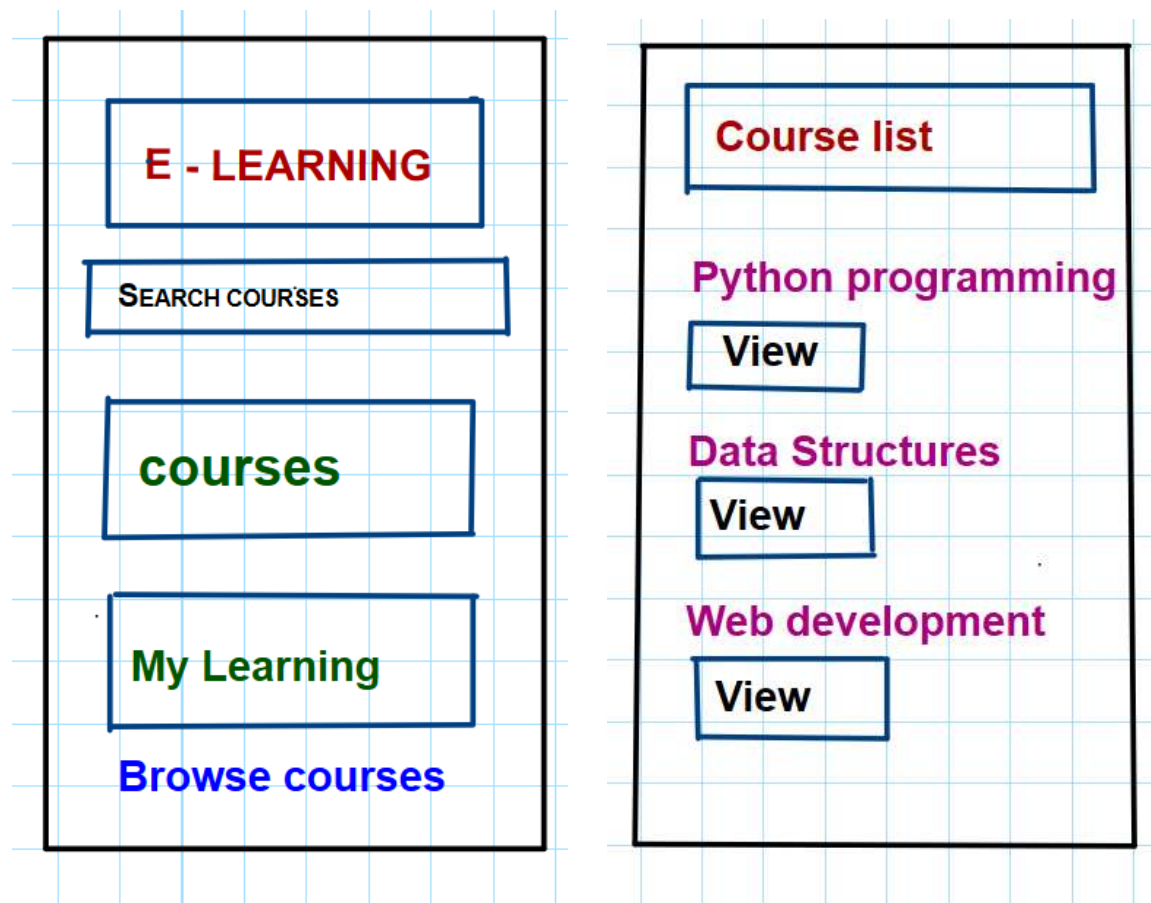

- Course Details → Video Player

Step 4: Add Annotations

- Added labels for each screen
- Included notes such as:
 - “User selects course”
 - “User enrolls and starts learning”

Result:

A storyboard representing the user flow of an Online Learning App was successfully created using OpenBoard with four screens.
